RUSS GENERAL IS KILLED BY GIRL

Five Shots Fired Into Back of General Min.

WIFE OF GENERAL SEIZED GIRL

And Turned Her Over to the Police. General Min Was Doomed by the Reds for Suppressing the Riots at Moscow Last December.

St. Petersburg, Aug. 28.—Saturday's unsuccessful attempt on the life of Premier Stolypin, with its sickening, useless slaughter of 32 persons, was followed Sunday night by another revolutionary outrage in which General Min, commander of the Seminovsky guard regiment, and who since his promotion to be a general, has been attacked as a personal adjutant to the suite of the emperor, was killed on the station platform at Peterhoff by a young woman who fired five shots into his body from an automatic revolver, and then, without resistance, submitted to arrest. The capture of the girl was effected by General Min's wife, who held her until the arrival of an officer.

This was the third successive attempt on the life of General Min, who was condemned to death by the terrorists immediately after the Moscow revolt last December on account of stern repression practiced by a battalion under his command and especially for the executions of persons condemned by drum head courtmartial for being caught with arms.

General Min was returning from his summer residence at Peterhoff and had just greeted his wife and a daughter on the platform when a young woman—almost a girl—approached from behind and fired two shots into his back and then three more into his body as it sank to the ground. Further shots were prevented by Madame Min, who threw herself upon the murderess and seized the hand which held the pistol. The woman did not attempt to escape, but she cautioned Madame Min not to touch a handbag which she had placed on the platform before shooting the general, explaining it contained a bomb.

To the police the girl acknowledged that she had done the deed, saying she had executed the sentence of the fighting organization of the social revolutionists, but refused to give her name.

By a remarkable mischance, General Min only last week, after the conclusion of the maneuvers at Krassnoye Selo, dismissed the body guard which had accompanied him since the first attempt was made on his life, saying that the ordinary police of Peterhoff would be sufficient to guard him.

During the Moscow revolt, Min, who was then a colonel, commanded the first battalion of the Seminovsky guard which operated within the city itself. The second battalion of the guard, under the command of Colonel Ryman, conducted repressions along the railroad to Kazan, for which acts Ryman also was condemned to death. Undeterred by several attempts to execute this sentence, Ryman accepted an appointment on the staff of General Skallon, governor general of Warsaw, after the bomb outrages at Warsaw, and left two days ago to assist in the suppression of anarchy in Poland.

St. Petersburg, Aug. 28.—An unsuccessful attempt on the life of Baron Shahl is reported to have been made in the park at Peterhoff Sunday night, but the story is denied. A number of arrests, however, were made in the park during the evening. Baron Shahl bears some resemblance to General Trepoff, commander of the police.

A number of officers who might be mistaken for General Trepoff have taken precaution to have their beards shaven off.

Leg Torn Off by Fly Wheel.

Houston, Tex., Aug. 28.—At Bifeon Oil Field Fred Bell attempted to start a gasoline engine. His foot slipped and caught in the spokes of the fly wheel and his leg was torn off, only the flesh holding it. He died soon afterward.

FOR PROTECTION OF WOMEN.

Fulton County Will Be Well Patrolled in a Short While.

Atlanta, Aug. 28.—The 24 additional county policemen will not be elected until the board of county commissioners meets on the first Wednesday in September. That is only a few days off, and it will give the commissioners time to select good men from the large number of applications that will be on hand.

It is believed that the addition of 24 more county policemen, together with the volunteer constabulary force of six in each militia district, will give the county ample protection from the criminals who have recently been making the country districts a terror to unprotected women and girls.

The people of Fulton county were never more in earnest than at present to stop negro brutes from assaulting white women, and in some instances the most extreme measures are being advocated.

There is strong talk of reorganizing the old Ku-Klux-Klan and vigilance committees in the country.

This, however, will probably not be necessary with a well-organized county police force, now contemplated.

There are now only twelve county policemen beside the chief, and the additional 24 will treble the force. Instead of having one central station at the court house, as is now the case, there will be three county police stations, so located as to give easy access to all parts of the country surrounding the city.

When fully organized, the county police force will not only make arrests for the commission of crime, but every effort will be made to prevent crime. This, it is said, can be done by promptly arresting every negro who is found on the roads or in the woods who cannot give a good account of himself or show that he is at work.

If negroes in the country are working, they can find but little time to loaf or wander about through the woods or the public roads.

The county police hereafter will work on the idea that an 'ounce of prevention is worth a pound of cure."

NEGRO LEAGUERS TO MEET.

First Session Will Be Held Wednesday Morning in Atlanta.

Atlanta, Aug. 28.—On Wednesday, Thursday and Friday, Aug. 29, 30 and 31, the National Negro Business League will be in session in this city, having selected Atlanta as the place for holding the convention of this year while in session last year in New York city. The Atlanta chamber of commerce and the city council of Atlanta extended a formal invitation at that time to the league to hold its next convention here.

When the league is called to order at 10 o'clock Wednesday morning in Big Bethel church, A. M. E., at the corner of Auburn avenue and Butler street, where the sessions of the convention will be held, it is expected that 600 delegates from 20 states will be present, and these, increased by relatives and friends who will accompany them, will bring between 1,500 and 2,000 of the best class of negroes in the country to Atlanta.

President Booker T. Washington, who has annually been re-elected to the presidency of the league since its organization in Boston in 1900, will make one of the chief addresses of the convention.

Little Girl Steals $140.

Kokomo, Ind., Aug. 28.—Lucy Hill, the 11-year-old daughter of Frank Hill, last Saturday took $140 from a dresser drawer, bought some new clothes, jewelry and a railway ticket to Dallas, Tex. She started south alone. Her parents thought she had been stolen, but she was heard from at Oklahoma. She will be returned to her father. "Oh, I just went out to have the time of my life," was her explanation.

Three Killed in a Wreck.

Helena, Mont., Aug. 28.—Information received here early Monday was to the effect that there was a wreck on the Great Northern at Swift, a station 16 miles south of Great Falls in which three persons were killed and 20 were injured. The wreck occurred between 7 and 8 o'clock Sunday night, and was caused by one of the cars jumping the track.

DYING MAN SAID HAWKINS DID IT

Prominent Young Farmer Held as Murderer.

CIRCUMSTANCES OF SHOOTING.

Hawkins Surrendered and Claims He Can Prove an Alibi—The Community Highly Wrought Up Over the Atrocious Crime.

Gainesville, Ga., Aug. 28.—Fred Hawkins, a son of Jerry Hawkins, a prominent and influential farmer of the Dade district, has been arrested by Sheriff Crow, of Gainesville, on the strength of the post mortem statement of the murdered man, Henry E. Cagle. Hawkins claims that he can prove an alibi. The murdered man was considered a leader in his community and the residents are highly incensed over the atrocious crime.

Cagle was shot with a double-barreled shotgun loaded with buckshot, the first load entering his stomach and the last one hitting him in the thighs. The shotgun he held in his hands was knocked from him by the first shot, which tore away his right hand.

The circumstances of the shooting are about as follows:

Cagle was attracted to his chicken house about midnight. He got up and started into the yard, his wife holding a light for him. As he stepped into the yard, he declared that he saw Fred Hawkins standing in a corner of the yard near his chicken house. He says that as soon as Hawkins got good sight on him, Hawkins raised his gun and fired at him. Cagle dropped to his knees from the wound, which was inflicted in his stomach. He stated that when the first shot was fired Hawkins' face was clearly seen by the flash of the gun. A second shot was then fired, this shot striking Cagle lower down than the first.

Mrs. Cagle ran to her husband, and as soon as possible neighbors were summoned. She remained to administer to the fatally wounded man, while others came to Gainesville for physicians and Sheriff Crow.

As soon as the sheriff arrived at Cagle's an effort was made to locate the person who did the shooting.

Tracks were found in the corner of the yard from which the shots were fired, and these tracks led off from the house across the fields, and was finally lost some distance away. Sheriff Crow then visited the homes of Fred Hawkins' father and his brothers and searched them, but young Hawkins was not found. He then went to Lula and telephoned and wired all over the county for bloodhounds. It was while he was engaged in trying to get dogs that he was notified that Fred Hawkins awaited him at Reed Hawkins' where he proposed to surrender himself to the sheriff.

Sheriff Crow immediately went to Reed Hawkins' and placed the accused man under arrest. Accompanied by Mr. Tom Martin, the sheriff brought young Hawkins to the city and placed him in jail. Hawkins refused to discuss the affair, further than to say that he was not guilty of the crime of which he was accused.

The shooting of Cagle, and the dying statement made by him that Fred Hawkins was the person who shot him, has caused a great sensation at this place and throughout the county. Cagle was a good citizen, and was of a quiet and genial disposition. He was highly esteemed and was considered a leader in his community.

Fred Hawkins is a son of "Uncle" Jerry Hawkins, and was not known as a bad young man in any respect.

It is said that Cagle and Hawkins had a disagreement about one year ago, but friends presumed that was long since forgotten by both of them. The unfortunate affair is greatly deplored.

Views on Lynching.

New York, Aug. 28.—"A southern man's view of lynching" was interwoven into one of an address last ered in the Metropolitan Temple Sunday night by Rev. Dr. Richard Wilkinson, of Monroe, La. Dr. Wilkinson said that if lawyers and judges did their full duty there would be no need of lynching parties. He praised the stand taken recently by Governor Blanchard, of Louisiana, and said that if the southern people would only look at the subject as did Governor Blanchard there would be few lynchings in the south.

Rendered Homeless by Floods.

Chicago, Aug. 28.—A special from Mazatlan, Mexico, says that several hundred people have been rendered homeless by the disastrous flood which has swept over this region for the past few days. Twenty days of incessant rain throughout this region of the Pacific coast has made all the lower country a vast sea of water. The waters of the bay have been supplemented by the torrents which poured down from inland. Scores of houses located on the beach were swept away. A broad boulevard which connected the city with the sea has been destroyed. The losses to sugar planters will be very heavy.

Test "Wireless Aeroplane."

New York, Aug. 28.—A dispatch to a morning paper from Brantford, Ont., says that Dr. Alexander Graham Bell's "wireless aeroplane" which is attracting the attention of Canadian and American scientists assembled here, had a preliminary test Sunday. Captain Angelmeyer, of Chicago, the navigator, succeeded in rising to a height of 200 feet, turning a complete circle and alighting safely a few feet from the starting point. Dr. Bell's flying machine is operated by wireless electrical energy supplied from the earth. Next Tuesday a flight from London to Toronto will be attempted.

Trys Phonetic Spelling.

Worcester, Mass., Aug. 28.—The news columns of the Telegraph Monday appeared with spelling like that approved by President Roosevelt. The plan is being tried as an experiment for one day only, though it is planned that as the paper has for some time followed the phonetic spelling in 196 of the 300 cases mentioned in President Roosevelt's order, the innovation is not so great as might at first appear. In order to carry out the idea through all the news columns, extra help was required in several departments of the paper.

Tied Up by Strike.

San Francisco, Aug. 28.—With the exception of the California and the Geary street lines, street railway traffic in San Francisco was suspended Sunday as the result of a strike for higher wages by conductors and motormen of the United States railway system. The strike went into effect at 5 o'clock this morning. The railroads made no attempt to run cars and there was no disorder. Automobiles and other vehicles were used and they did a good business.

Barton Says He Was Drunk.

Columbia, S. C., Aug. 28.—Prince Barton, a cotton mill operative, is in Aiken jail, charged with assaulting Mrs. Mattie Bryant, of Graniteville. Mrs. Bryant, who is a divorced woman, says Barton called on her for the first time, and she agreed to accompany him to an ice cream festival. While on the way Barton attacked her, tearing her clothes and biting her on the cheek and arm. Her screams attracted assistance, but Barton had fled. There is no excitement.

Captain Gregg Dead.

Oak Grove, Mo., Aug. 28.—Captain J. Frank Gregg, who, for the first half of the civil war was in General Joe Shelby's command, but who later was with Quantrell, the raider, and is said to have been in the famous raid at Lawrence, Kans., died at his home at Grain Valley, near here Sunday.

Died from Burns.

Houston, Tex., Aug. 28.—Near Calvert three children of Jake Holley, a negro, the oldest 12 years, were terribly burned. One child was kindling the fire with kerosene. An explosion followed, and the children were so badly burned they died within an hour.

NEWS OF REVOLUTION IS SOMEWHAT MEAGER

Dilatory Tactics of Rebel Leader Leads to Hope

THAT PEACE MAY NOW BE HAD

Claims and Counter Claims Are Frequently Made But There Is Comparatively Little Fighting In Cuba. Must Release Prisoner.

Havana, Aug. 28.—News of the somewhat shifting "front" is somewhat meager today, due in a measure to the government's determination that untrue reports from insignificant sources shall not be circulated.

The dilatory tactics of the insurgent leader Guerra leads to the hope that peace may soon be established.

Claims and counter claims are frequent but there is comparatively little actual fighting.

At the palace little is given out. The enrollment of volunteers continues, horses are being requisitioned and army nurses are being sent to the field. There is talk of a 30-day amnesty in which insurgents who surrender their arms would be pardoned, but if the government intends such a move, its purpose is not admitted. Skirmishes between small bands continued.

From the field Colonel Asbert has sent the following message to the palace:

"We have taken up arms against the government because we have at last reached the conclusion that law and justice are not to be established in this country by the will of the people and because the administration, protected by an unscrupulous judiciary, daily commits other violations of the constitution and despoils our people of their legitimate rights.

"It is our sole desire to establish the supreme rule of law and restore affairs where they were before the last election. We want elections called in order that the people, exercising with the fullest freedom the right of suffrage, may elect the men who of a right ought to occupy the posts of president and vice president, as well as governors, senators, representatives and councilmen.

"We do not intend to wage a bloody war because we look carefully when it comes to the point of sacrificing our brothers. Only when attacked will be attempted to defend our selves. Even then avoiding bloodshed as far as possible.

"We gave proof of our intention in the fight at Flor de Mo, wherein the forces of the government who attacked, were dispersed. In that attack we had the opportunity, if desired, to make the most of it and kill the majority of those who attacked us, but we generously refrained.

"We are satisfied with our work, for it will be the greatest guarantee of the pacific stability of the republic. We understand that when the people come in possession of their legitimate rights, a lasting peace will be assured."

General Guerera says he is going into Guane to get the rural guard corporal Trujillo out of jail there. He says this man is imprisoned for being a liberal and for fear that he may join the rebellion.

Pino Guerera has sent a letter to the mayor of Guane informing him that he found Trujillo on his arrival he would hang the authorities of the town. A little excitement was caused in San Juan last night by a group of volunteers who saw an ox in the darkness and because he did not halt and give the countersign, fired on and killed it.

Hebrews Make Protest.

Knoxville, Aug. 28.—L. Schwartz president of the local Hebrew congregation, has sent the following telegraphic protest to President Roosevelt, against the deportation of the Hebrew orphans as ordered by Ellis Island officials Sunday: "Hon. Theodore Roosevelt—Knoxville Hebrews protest against deportation of Russian Hebrew orphans. We will provide for two. (Signed) L. Schwartz, President."

Knoxville, Aug. 28.—L. Schwartz president of the local Hebrew congregation, has sent the following telegraphic protest to President Roosevelt, against the deportation of the Hebrew orphans as ordered by Ellis Island officials Sunday: "Hon. Theodore Roosevelt—Knoxville Hebrews protest against deportation of Russian Hebrew orphans. We will provide for two. (Signed) L. Schwartz, President M. [illegible] Congregation.

CONSTANT RAINS HARD ON COTTON

The Yield in Santa Fe Section Will Be a Long-Ways Short.

FARM LABOR IS SCARCE

And As a Result the Farmers Will Lose Heavily on Cattle Feed, As a Large Acreage of Velvet Beans Was Planted—Other Notes of Interest.

Santa Fe, Aug. 28.—The public school here is progressing finely under the able management of Prof. J. R. Durrance, assisted by Miss Ora Adkins. Prof. Durrance is now engaged in teaching his second term here, and is giving entire satisfaction. He is an exemplary young man, and one that is considered by those who know him as one of the best instructors for rural schools in the county.

This section is having too much rain again. The cotton crop is greatly damaged—some say fifty, and others sixty per cent. The corn crop here is under an average owing to too much rain.

The annual communion meeting of the Suwannee River Primitive Baptist Association will meet with New Hope Church on next Friday, Saturday and Sunday. A large crowd is expected.

Prof. J. R. Durrance visited the Central City Saturday.

Mrs. W. H. Colson, who has been sick with fever, was reported some better yesterday.

John Holder of Citronelle was visiting relatives and friends here last week.

Miss Julia Doke, the charming daughter of Hon. T. A. Doke, was visiting relatives at Bland last week.

Master Lucius Rivers of the Central City is visiting his grandparents here this week.

Grandpapa Futch is visiting in Lake Butler today.

Mrs. W. M. Blitch and daughter, Miss Alma, are visiting relatives at Haynesworth today.

The farmers are badly put out over the prospects for cattle feed this fall and winter. As labor was so scarce they put in an unusually large crop of velvet beans, and the prospects were good until a few days ago; but alas, the caterpillars are here and the prospect for a crop is gloomy—in fact, hundreds of acres of beans that but a few days ago were growing fine are today minus leaves.

Governor Broward has appointed W. M. Blitch as a delegate at large for Alachua county to the the Farmers' National Congress, which convenes at Rock Island, Illinois, on October 9th to 20th, 1906.

Santa Fe river is again rising. It is feared that if the heavy rains continue that the swamp will again overflow.

Herman Harrell, the son of J. W. Harrell of Santa Fe who has been quite sick in Tampa with typhoid fever, is reported convalescent. His father is with him and will move him home this week if no relapse occurs.

THE NEWS FROM ARNO.

Religious Meetings at Forest Grove Church Closed—Other Notes.

Arno, Aug. 28.—The series of meetings of two weeks held at Forest Grove Church by Dr. E. T. Allen closed Sunday night. The church and community have been greatly blessed by these meetings. There were ten accessions to the church, and there will be more to follow; besides, several will join other churches.

Dr. Allen and family left Monday morning for Citrus, where he has a large orange grove, and where he and his family expect to spend the winter. The Forest Grove Church called Dr. Allen to be the pastor next year, but he has not yet accepted the call.

Miss Annie Price leaves this week for Abbeyville, Ga., where she has engaged to teach school next year. John and Ida Price accompany her to attend school. They will be missed very much, especially in the Sunday school and Christian Endeavor Society.

Mr. and Mrs. Tom Brown, who have been very sick with typhoid fever, are much better, and we hope will soon be out again.

Miss Emma Hughes of Tioga, who has been visiting several days at the home of Mr. and Mrs. F. P. Henderson, has returned home.

F. P. Henderson left Monday on a business trip to Kumoko, Archer and Gainesville.

LOCHLOOSA NOTES.

A Pleasant Birthday Party—Other Matters of Personal Interest.

Lochloosa, August 28.—G. A. Singletary and family of Gainesville have been visiting here a few days.

Mrs. R. A. Hendrix of Largo is spending a while with her parents, Mr. and Mrs. S. C. Haymans.

Mr. Huebert Sanders and sister, Lotus, of Hawthorn, were here a few days ago.

A. K. Wade, Jr., celebrated his eleventh birthday Thursday by giving an ice cream social, inviting a few of his lady and gentleman friends. A good crowd was present and enjoyed it. The yard was lighted up by Japanese lanterns, which gave a beautiful effect. Cream and cake was served.

Mrs. J. P. Tompkins and children are spending a while with relatives.

Warren Pace returned a few days ago from a pleasant visit to relatives at Summerfield.

Jim Tompkins and daughter, Mrs Turner, are visiting relatives here.

Monteocha Has a Paper.

D. V. Maines, a progressive farmer and well-known citizen of Monteocha, was trading in the city yesterday.

Mr. Maines states that Monteocha has now the distinction of being a "publishing town," as his nephew, Schell Maines, had begun the publication of a small four-page weekly, which he has styled The Hustler. The first issue was out several days ago. Schell is a bright young fellow, and will no doubt make a big success of his efforts. His ambition in the journalistic world will be appreciated and suppported by those who know him. He is only fourteen years of age.

Unknown Man Suicides.

Kansas City, Aug. 28.—An unknown man, about 35 years old, and poorly dressed, entered a pawn shop in Grand avenue, between Twelfth and Thirteenth streets, in the business district here Monday, and after asking the proprietor for a revolver filled the weapon with cartridges taken from his pocket, leveled it at the two men in the place, and after forcing them into the street, shot himself in the head. He died within a few minutes.

Steamer Amsterdam Grounded.

Rotterdam, Aug. 27.—While coming up the river Friday night, the Holland-American liner Nieuw Amsterdam, bound to this city from New York, grounded near Maassluis. Her passengers were transferred to other steamers, and tugs, and brought to this city. Part of the steamer's cargo was discharged into lighters and the vessel was refloated Saturday.

HARVARD IS AGAINST SYSTEM.

Will Not Stand for the Carnegie-Roosevelt Style.

New York, Aug. 28.—A dispatch to a morning paper from Northeast Harbor, Me., says:

Harvard will not stand for the Carnegie-Roosevelt innovation, according to President Eliot who is stopping here. Mr. Eliott says the new style of spelling does not in the least appeal to him.

"I suppose that President Roosevelt has a right to write his messages in any style of orthography to which he may incline," he said, "but I think it will be a long time before such a style as that proposed becomes very popular or takes a great hold upon the public.

"I do not myself care for it, and it is my opinion that the same view is held by the majority of leading educators. There are some distinguished men, such as President Butler, of Columbia, who have favored it, but I do not see that their work has accomplished much."

"The English will hardly adopt this new system," he said. It would mean not only that the publishers would be obliged to make two sets of plates, but that all the present plates of standard and popular works would be rendered incorrect and without value. It would be found that the public will not like the looks of 'thru' and 'tho' and words similarly spelled."

What a "Wed" Means.

Among the Anglo-Saxons the bridegroom gave a pledge or "wed" at the betrothal ceremony. This "wed" included a ring, which was placed on the maiden's right hand, where it remained until at the marriage it was transferred to the left. Englishwomen at one time wore the wedding ring on the thumb. Many portraits of ladies in Queen Elizabeth's days are so depicted. In the reign of George III. brides usually removed the ring from its proper abiding place to the thumb as soon as the ceremony was over. In Spain the gift of a ring is looked upon as a promise of marriage and is considered sufficient proof for a maiden to claim her husband. It is a custom to pass little pieces of bride's cake through the wedding ring, and those to whom these pieces are given place them under their pillows at night to dream of their lovers. These "dreamers," as they are called, should be drawn nine times through the ring. Many brides, however, are so superstitious that neither for that purpose nor at any other time will they take the ring off their finger after it has once been placed there.

The Drunkard's Cloak.

Some odd torture relics of the past have recently been sold at auction in London. Quaintest among them was a device known as the drunkard's cloak. It is made of wood and in shape resembles a huge inverted flower pot. Through the small circular aperture in the top was thrust the neck of the imprisoned inebriate. The weight of this ancient counterpart of the straitjacket fell on the victim's shoulders and was sufficient to make every bone in his body ache. With his hands practically pinned to his sides and the garment reaching almost to the ground, the only motion allowed him was a slow shuffle of his weary feet as he dragged his way painfully along. One can well believe that any one who had been compelled to don the drunkard's cloak would be very apt to come to the conclusion that a high old time was not worth having at the price.

Intricate Consanguinity.

I married a widow who by her first husband had a daughter, with whom my father (a widower) fell in love and whom he married. So my father became my son and at the same time my daughter became my mother. Then my wife had a child (boy), who became the brother of my father and at the same time my uncle, because he was the brother of my mother. Then the wife of my father had a child (also a boy), who became at the same time my brother and my grandson, being the son of my daughter. So my wife became my grandmother, because she was the mother of my father's wife, and I was also her grandchild, and, as the husband of a grandmother of somebody is necessarily the grandfather of this somebody, I became my own grandfather.—New York Times.

Appropriate.

"You in the hotel business?" snorted Dumley's friend. "Why, you were never intended for a hotel man."

"Maybe not," replied Dumley, "but I'm in for it now. I notice all the swell hotels have a motto, and I thought you might suggest"—

"Better make yours, 'Mistakes will happen.'"—Philadelphia Press.

NEWS OF CITY AND COUNTY CONDENSED

J. Stuart Lewis, a popular and well known postal clerk of the railway mail service, passed through the city yesterday en route to Irvine, where his wife and two interesting little daughters, Misses Elizabeth and Sallie, are visiting relatives. Mrs. Lewis expects to leave shortly for Fort Ogden, where she will spend a few days with her father, Dr. S. D. Smoke.

Mrs. A. Bailey of North Gainesville, who is spending the summer in the Northwest, writes a friend in this city from Detroit, Mich., that she is enjoying her trip immensely, and that the change has proved a great benefit to her. She has just returned from a delightful visit to Windsor and other points in Canada, where she spent a most delightful time.

M. G. McCarroll and daughter, Miss Willie, left yesterday for Williston, where they go to visit the young son of Mr. and Mrs. Thomas McCarroll, recently born. "Grandpa" McCarroll has been walking as proud as the proverbial peacock since this young man came into the world, and, since it was his first visit to his grandson, one can imagine the pleasure which he derived.

Geo. P. Morris has returned from Worthington Springs, where he has been on a brief visit to his wife and children, who are spending a few days at that resort. Mr. Morris states that the spring is now in fine condition, and that the popular new hotel under the management of Wells & Lamb is enjoying a fine business. The table and service is good, and altogether Worthington is a most desirable resort at which to while away a vacation.

In mentioning the meeting of the County Fair Association Monday afternoon, The Sun unintentionally omitted the name of Dr. T. F Thomas, who was elected a member of the board of directors. Dr. Thomas served in the same capacity last year, and his services and influence were so valuable that he was unanimously placed upon the board for the coming season. In some manner his name was overlooked, and it gives The Sun pleasure to now make a note that he has been re-elected a member of the board.

The men employed as salesmen by the Wrought Iron Range Company of St. Louise after spending three months in this section, have gone to Ocala, where they will make their headquarters for the next three months. This aggregation, which has been under the management and supervision of Division Superintendent A. G. Reynolds, made many friends throughout Alachua county who regretted to see them leave. They are clever, gentlemanly fellows, and would make most desirable citizens

MISS M'CREARY RETURNS.

After a Delightful Trip Abroad She Has Returned Home Again.

After an absence covering a period of over two months, Miss Irene McCreary reached home Tuesday from a European trip which embraced a visit to the principal points of interest in Germany, Switzerland, Italy and England, including in her itinerary on the return points in Canada.

Miss McCreary, in company with Miss Clem Hampton and others, sailed from Baltimore direct to Bremen, Germany. After a short time spent there the party proceeded to Berlin and other German cities. From Germany she went to Italy, visiting Rome, Naples, Venice and Florence. The party also visited Interlaken, and other points of interest in Switzerland. Near Interlaken she ascended the famous Jungfrau mountain, one of the highest in all Europe, where she enjoyed the novelty of a "snow-ball fight" with her companions in July.

From Switzerland Miss McCreary and her party journeyed to Paris, from which city they proceeded to London. She visited Stratford-on-the-Avon, the historic home of Shakespeare, and was deeply interested in the place.

From Liverpool a steamer was taken for Quebec, and a trip was enjoyed down the St. Lawrence to Montreal. Miss McCreary left Miss Hampton in Montreal and proceeded to New York, where she spent a short time before returning home.

Friends of Miss McCreary are delighted to welcome her again, and delighted to see her looking so well after this extended voyage.

THE STATE EXAMINATIONS.

Began on Tuesday and Will be Continued for Three Days.

Hon Wm. M. Holloway and son, Luther, arrived in the city Tuesday from Tallahassee, and will remain here for the next two or three days.

Prof. Holloway, who is State Superintendent of Schools, came for the purpose of conducting the examination of teachers, which was called for the benefit of those who entered the second or extra normal course in this city. There were nine applicants, all white.

Tuesday was devoted to examination in geometry and zoology, and Prof. Holloway was well pleased with the progress of the day.

Delightful Birthday Party.

There was a delightful birthday party at the home of Mr. and Mrs. C. E. DeLand, 800 East Church street, Saturday afternoon, the occasion being the celebration of the eighth birthday of little Miss Bernice DeLand, and the fifth birthday of Master Harold DeLand.

A number of friends of the little folks, by invitation, attended the function. There were refreshments and games, and altogether the afternoon was passed in a most enjoyable manner, and the guests departed wishing their young friends many happy returns of the occasion.

There Was No Game.

The ball game advertised between the Oak Halls and Williston for Tuesday afternoon did not transpire, owing to the fact that the Williston boys did not put in an appearance. Several who went to the park were disappointed, but it was through no fault of the Oak Halls that the game was not pulled off. All arrangements had been made, and had the Williston boys came as was expected, there would probably have been an exciting game.

ROBERT OLIN CHAPPLE.

Former Gainesville Pitcher Will Finish Season in National League.

Robert Olin Chapple, the Georgia boy who for two seasons was one of the most popular members of the Jacksonville baseball team, and who this season has made a record with the Scranton club, in the New York State League, will finish the present season in the National League, his release having been purchased from the Scranton club by Manager Ned Hanlon of the Cincinnati Reds.

Chapple's thousands of friends—he has thousands—throughout this league will no doubt read of his advancement with pleasure.

When the South Atlantic League was formed, Robert Chapple was one of the first men signed to play with the local team. He pitched splendid ball during the first season and was retained for the next season. After finishing last season, wherein he pitched good ball, he was drafted by Manager Ashenback of the Scranton team, and he has been with that team in the fast New York State League during the present season.

Chapple has indeed made a great record with the Scranton team. He has practically won the pennant for the genial "Ash."

Out of thirty games pitched Chapple has won twenty-five, a record which is hard to beat.

The Philadelphia Record is the authority for the Cincinnati deal, and it states that the Scranton management received $3,000 for the Southern twirler. It is not thought that "Chap" will report to the Reds until after the close of the New York State League season, which ends about the middle of September.

A PAINFUL ACCIDENT.

Mr. Hismith Fell Through Floor and Sustained a Broken Arm.

Mr. Hismith, who resides in North Gainesville, was the victim of a peculiar and painful accident a day or two ago which is likely to incapacitate him for duty for some time.

Mr. Hismith was walking on the upper floor of the veranda of the house he occupies, when the floor, which was decayed, suddenly gave way, and he was precipitated several feet to the floor below. In the fall he sustained a broken arm, and was otherwise considerably bruised.

A physician was summoned and the wound attended to, and at this time the patient is resting easily, although it will be sometime before he will be restored to his normal condition.

Mr. Hismith's friends sympathize with him deeply in this misfortune.

Caused Great Alarm.

Lima, Peru, Aug. 27.—There was great alarm in this city Friday night owing to the prediction of a strong earthquake both here and at Callao. Many families in this place spent the entire night in the streets and in the public squares. The authorities tried their best to calm the people, but found it impossible.

Evansville, Ind., girls have formed a Single Blessedness Club. We may safely regard this as merely another case of beau-baiting.

A Tennessee man wants Congress to pass a law against peek-a-boo waists. He must possess an unholy desire to get Congress to hunt for trouble.

A piece of ground five inches wide was sold in New York recently for $2,000. The purchaser probably intends to put a thirty-five story building on it.

The Live Oak Democrat has changed from the four-page to the eight-page form, the same size of The Sun, and presents an exceedingly handsome appearance.

The people of Jackson county are proud of their new court house, and judging from the picutre of same which appears in The Marianna Times-Courier they have a right to be.

General A. Scott of Greenwood, Jackson county, is dead. He was sheriff of the county for twenty years and a grand old man whom it was an honor to know. Peace to his ashes.

"There should be an eight-hour day for fashionable women. We cannot talk scandal continuously for twelve as we do now," says a London society leader. Huh! Even hint at such a law in America and there would be a petticoated rebellion.

JAMESTOWN EXPOSITION.

Determined to have Florida represented in a creditable manner at the Great Jamestown Exposition in 1907, and at no cost to the committee of Florida, Colonel T. J. L. Brown, president of the State Fair Association and Chief Commissioner to the Jamestown Exposition by appointment of Governor Broward, has decided upon and will carry out a most excellent and commendable plan.

Colonel Brown intends that the various counties' exhibits at the coming State Fair shall be taken to Norfolk directly after the fair closes, and at no expense to the counties participating. In Norfolk he has entered into a contract with one of the greatest storage warehouses in the country to care for the prducts, particularly those of a perishable nature, until the Exposition, which will be attended by hundreds of thousands of people from all sections of the country and civilized world, opens. This will be done at the expense of the Exposition Commission, and in order to secure creditable representation it is the duty of the commissioners of every county in Florida to make preparations for having their county represented at the fair, appointing a commissioner to collect exhibits, and making such an appropriation as is necessary to defray the actual expenses of exhibiting at the fair. This should be done at the September meeting. In this way the counties will be represented without cost at the Great Jamestown Exposition, and the State will be benefited incalculably.

Canada holds that if there is to be an annexing on this continent she should be the annexer, not the annexed. The Dominion now exceeds the United States in area by 250,000 square miles. She comprises one-third of the area of the British empire, is as large as thirty United Kingdoms, eighteen Germanys and thirty-three Italys. Her seacoast equals half the earth's circumference, and her territory stretches 3,500 miles one way and 1,400 the other. But Canada's total population doesn't equal the population of New York and London combined, and it is people, not acres, that constitute a country's greatness.

Is not the happiest man or woman the most successful in the highest sense of the word? Given the comforts of life, is anything more desirable than the sunshine of a happy home, where a loving wife and merry, healthy children abide, and where friends congregate for cheerful, inspiring association? Industry and temperance and courage will bring to any man the comfort of life. Add to this a kind heart and a generous, tactful consideration toward all men, and life is complete.

The Secretary of the Treasury is now in the market purchasing silver for coins of the United States for the first time since the repeal of the purchase provision of the Sherman law in 1893, nearly thirteen years ago. This of course does not mean that he has resumed or is going to resume the coinage of silver dollars. He has no authority to do that and is glad he is not required to do it. It means only that silver is needed for additional fractional silver coin.

The women will never get over being indignant because widows "handle" men so easily, and marry with so little difficulty. Widows "handle" men because they know them. A woman who has passed through the siege with one man knows another man pretty well, and if a man fools around her much she will land him as a husband if she wants him.

Deafness Cannot be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucus lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucus surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

WORMS

"I had for years suffered from what medical men called Dyspepsia and Catarrh of the Stomach. In August I purchased a box of Cascarets and was surprised to find that I "had 'em"—yes—a wiggling, squirming mass left me. Judge our doctor's surprise when I showed him thirty feet, and in another day the remainder (about the same length) of a tapeworm that had been sapping my vitality for years. I have enjoyed the best of health ever since. I trust this testimonial will appeal to other sufferers."

Female Weakness

"Last Fall," writes Mrs. S. G. Bailey, of Tunnelton, W. Va., "I was going down by inches, from female disease, with great pain. After taking Cardui, Oh! My! How I was benefited! I am not well yet, but am so much better that I will keep on taking Wine of Cardui till I am perfectly cured."

Despite the envious attacks of jealous enemies and rivals, Cardui still holds supreme position today [as in the past 70 years] for the relief and cure of female diseases. It stops pain, tones up the organs, regulates the functions, and aids in the replacement of a misplaced organ.

THE BREAKERS

THE BREAKERS is second to none in location and beach attractions. It is the ideal hotel for summer tourists. Situated upon a high bluff overlooking the ocean, and less than two hundred feet from the rolling surf, it combines the benefits of an ocean voyage with the pleasures of a shore resort. The rooms are large all outside, en suite and single with baths, and thoroughly screened. The dining-room is on the ocean side and one of the most attractive rooms of the hotel. Electric lighting, telephone service and immediate connection with an up-to-date livery.

Bus will meet all trains.

In addition to The Breakers it has been possible to add the use of the Clarendon bath houses, bowling alley, pool tables, dancing pavilion and the famous Clarendon fishing pier. The table will maintain the high standard to which Mr. Holt pledges himself, wherever he assumes the management.

The remarkable record for healthfulness, especially for children, is a well established feature.

The proof of all is to join with the many who are booking for the season.

NEGRO SWUNG BY LYNCHERS.

He Had Attempted to Assault Young Lady of Louisiana.

Calhoun, La., Aug. 28.—Alfred Schaufniet, a negro, was lynched here Sunday by a mob for attempting to criminally assault Miss Olive Chambers, a prominent young woman of this place, at an early hour Sunday morning.

Schaufniet was frightened by the screams of his intended victim and fled, but was later captured by a posse a few miles out of town.

The negro was brought back by the posse, and after confessing his guilt, was hanged to a telegraph pole.

His body was viewed by hundreds of persons, both white and black, and every one seemed pleased at the dispatch which justice was meted out to the negro.

The following bold notice was posted upon the negro's body:

"This is a warning to all negroes, who would attempt to force an entrance to the apartments of white women."

The mob which lynched Schaufniet was a quiet but determined one.

THE POWER OF STEAM.

Many May See But It Takes Genius to Realize.

When James Watt saw the steam causing the kettle lid to jump up and down he said "There must be power in that steam that it can lift such a weight."

There was.

Millions prior to him had seen the same phenomenon and regarded it as an unexplained mystery.

Recent scientific research has put its finger on the "cause" of Dandruff, Falling Hair, and consequent Baldness, and has unearthed a tiny germ which eats the life from the roots of human hair.

Newbro's Herpicide destroys this germ and consequently restores the hair to its natural state.

NO CONVENTION OF POPULISTS.

Meeting Has Been Practically Called Off by Officers.

Atlanta, Aug. 28.—When the convention of Georgia populists met at the state capitol on July 4, immediately after the reading of J. J. Halloway's address, a motion was adopted that the convention adjourn was adopted that the convention adjourn to convene on Tuesday, Aug. 28, in the hall of the house of representatives at the state capitol, at which time a full state ticket would be put in nomination.

Since then, however, things have happened. The Democratic state primary has been held, and the convention scheduled for Tuesday has been practically called off. Secretary J. E. Bodenhamer, of the populist executive committee, having written to Chairman Holloway urging that the convention be declared off, inasmuch as it would be a waste of time to hold the meeting.

Secretary Bodenhamer takes the view that Hoke Smith's victory in the primary last Wednesday was so overwhelming that it would be a waste of time and energy for the populist party to nominate a ticket, in addition to which he declares that many populists voted for Mr. Smith, whose platform embraced many of the principles for which the populist party has been fighting for years.

MEETING OF REPUBLICANS.

Party May Decide To Put Out a State Ticket for Offices.

Atlanta, Aug. 28.—At noon on Tuesday, Aug. 27—At noon on Tues- publican party will meet in convention in the senate chamber in the state capitol for the purpose of considering the advisability of naming a full state ticket.

The meeting was called by W. H. Johnson, chairman of the state central committee, who is unable to say whether or not the delegates from all over the state will decide to enter the lists against the Democratic nominees.

At any rate, should the party decide to go through this empty formality, it would be solely for the purpose of maintaining party organization. Some of the representatives of the G. O. P. esteem it an honor to be named for an office, even though the ballots bearing their names and cast in the general election are few in number.

Another Good Man Gone Wrong.

He neglected to take Foley's Kidney Cure at the first signs of kidney trouble, hoping it would wear away, and he was soon a victim of Bright's disease. There is danger in delay, but if Foley's Kidney Cure is taken at once the symptoms will disappear, the kidneys are strengthened and you are soon sound and well. A. R. Bass of Morgantown, Ind., had to get up ten or twelve times in the night, and had a severe backache and pains in the kidneys, and was cured by Foley's Kidney Cure. J. W. McCollum & Co.

May Make Important Deal.

TIPS AND TIPPING.

The Customary Exactions on Board the Atlantic Liners.

Do not take fright at what you may hear about excessive tips on steamers and in Europe. They are numerous, but need not be large. To scatter your money wildly in tips will mark you as a novice. All the servants will quickly spot you, pass the word around and fleece you. Tips vary, of course, in accordance with the grade of steamers, hotels and other accommodations. If you travel in a specially equipped floating palace you must expect to pay at least $25 for steamer tips. On regular first class steamers, however, the following are customary and will be ample: Stateroom steward, $2.50; stateroom stewardess, $2.50; dining room steward, $2.50. These are obligatory. On the cheaper first class steamers they may be reduced to $1 each and be entirely dignified. It all depends on the boat. By talking with other passengers you can readily learn the customary scale for your steamer. If you use the bathroom regularly, pay the bathroom steward $1; if less frequently this might be cut to 25 cents a bath. If you read books from the library, give the steward a tip varying from $1 down to 25 cents, according to grade of steamer and frequency of his service to you.

The deck steward's gratuity is a variable quantity; he has opportunity for getting tips from so many people that he fares better than inside stewards, who are restricted to a certain number; hence do not be uneasy about him. Give him what you think he has earned in waiting on you, according to relative service with the other stewards. A dollar is the maximum expected on ordinary boats.

Thus your total tips need not exceed $10 a voyage and may not be more than $5. Be reasonable in what you require of stewards, and if you should ask special service of them outside the line of their regular duties, pay them for it.—Myra Emmons in Good Housekeeping.

EARTH'S LATENT POWER.

All Solid Substance May Vanish in a Moment of Time.

The late Professor S. P. Langley, secretary of the Smithsonian institution, speaking of earthquakes, said:

"The consideration of the unfamiliar powers certainly latent in nature, such as belong to a little tremor of the planet's surface or such as was shown in that scene I have described," referring to phenomena he had witnessed when the comparatively insignificant effect of a few tons of dynamite was to make solid buildings unrealities, "may help us to understand that the words of the great poet are but the possible expression of a physical fact; that 'the cloud capped towers, the gorgeous palaces, the solemn temples, and we with them, may indeed some day inconceivably vanish as the airy nothing at the touch of Prospero's wand, and without the warning to us of a single instant that the security of our ordinary lives is about to be broken.'

"We concede this, however, in the present case only as an abstract possibility, for the advance of astronomical knowledge is much more likely to show that the kernel of the comet is but the bigness of some large meteorite against which our air is an efficient shield, and the chance of evil is most remote—in any case only such as may come in any hour of our lives from any quarter, not alone from the earthquake, but from the pestilence that walketh in darkness from the infinitely little below and within us as well as from the infinite powers of the universe without.

"Something common to man and the brute speaks at such times, if never before or again; something which is not altogether physical apprehension, but more like the moral dismay when the shock of an earthquake is felt for the first time, and we know that startling doubt superior to reason whether the valid frame of earth is real, and not 'baseless as the fabric of a vision.'"—Washington Star.

The Oldest House In Louisiana.

The oldest building in Louisiana, the ancient archbishopric on Chartres street, New Orleans, boasts of one of the handsomest courtyards. The building was erected in 1727 and remains exactly as it was first erected. Visitors will remark the ancient staircase of cypress, worn by the passing of generations. In the courtyard is seen one of the oldest and best preserved specimens of the "Spanish dagger." It dates back, so those who claim to know aver, to the building of the palace, and indeed its height and dignity indicate anything but youth.—Craftsman.

Children in Pain

Never cry as do children who are suffering from hunger. Such is the cause of all babies who cry and are treated for sickness, when they really are suffering from hunger. This is caused from their food not being assimilated but devoured by worms. A few doses of White's Cream Vermifuge will cause them to cease crying and begin to thrive at once. Give it a trial. Sold by W. M. Johnson.

Keeping constantly at it is the key to successful advertising.

You cannot spurt much and win. A business career that goes by fits and starts will not pay so well in the long run as a business that follows a course mapped out for it and keeps increasing its advertising as the business demands it until the maximum is reached. There is a maximum for a small business beyond which it is not economy or policy to go.—Brookline Chronicle.

Our columns furnish the key to successful advertising in this community.

Impertinent.

Originally the word "impertinent" signified merely "not belonging to." When Wycliffe said that there were many men in this world who were "impertinent to earthly lords" he did not mean that they were "cheeky," but merely that they had no masters. Then, as used by Shakespeare, "impertinent" came to mean "irrelevant." Just 200 years ago it was defined as signifying "absurd, silly, idle."

Indefinite.

"Darling, yours shall be a sunny lot in life."

"Now, look here, George, are you talking of your behavior or of where we are going to build in the suburbs?"—Baltimore American.

One Vain Wish.

STEVENSON, Ala., June 6, 1901.

Dr. E. W. Hall, St. Louis: Dear Sir—I have been a great sufferer from bladder trouble for two years and my case was of a very severe nature, compelling me to have several painful and dangerous operations. I have also taken many different remedies. I took Swamp Root for three years and Warner's Safe Cure two years and they only gave temporary relief. After having two operations and preparing for the third, I saw your Texas Wonder advertised and purchased a bottle. I got almost immediate relief and have continued to improve ever since. My doctor said my bladder had grown together in three places, and I was suffering almost death. No man living can say more than I can for your Texas Wonder, and I call it a world's wonder, and I hope all who suffer will give it a trial. Wishing you success, I am

Yours truly,
W. C. DANIEL.
